

Things to Consider

When Reaching Out for Help...

National Online "Referral" Agencies

While it may be tempting to complete on-line forms to receive free information, before submitting these forms, we encourage families to read and understand the agency's PRIVACY POLICY, specifically USE and DISCLOSURE OF PERSONAL INFORMATION. Typically, after completing on-line forms, your information is automatically disbursed to Assisted Living Communities and Home Health Care Agencies within their "Provider Network"—generating an overwhelming number of calls directly to you.

Local, Confidential, Personalized Services

"Opening New Doors" does not disperse your personal identifying information to any Assisted Living Communities or Home Health Care Agencies. You will not have to worry about pressure from them contacting you directly to use their services.

Our local "Care Coordinators" have first-hand knowledge about Providers who offer quality services. We recommend and connect you to those best suited to meet your loved one's needs.

"Opening New Doors" combines the expertise of a large agency with the warmth and support that only a small agency can deliver!

Assisted Living Placement & In-Home Care Coordination

*Making Good
Decisions Begins
with Understanding
ALL Your Options.*

A Coordinated Approach to Finding The Best Care Option

Whether your loved one needs In-Home Care, Assisted Living or a Secure Memory Care Community, our Care Coordinators will help your family **Identify** care options within your budget, **Explore** which options best meet your needs and provide hands-on assistance with **Coordinating** services.

At "Opening New Doors", our Senior Care Coordinators have first-hand knowledge about the **Costs, Quality** and **Availability** of Senior Care within Southern New Hampshire.

Integrity, Advocacy, and a **Genuine Concern** for families searching for the best care for their loved one is at the heart of our services. "A Breath of Fresh Air" is how many families have described our services...

Call us today and start making informed decisions you can feel good about.

In-Home Care Coordination

If given the choice, most seniors would choose to remain in their own home for as long as possible. Our Care Coordinators work closely with your family and local providers to coordinate services that create a supportive, safe and accessible living environment, so they can continue enjoying all the comforts of home. We explore the following services:

- Home Modifications
- Safety Monitoring Devices
- Assistive Devices
- Medical and Non Medical In Home Care
- Respite and Adult Day Care Programs

Assisted Living and Memory Care Placement Services

Many family members or caregivers have a threshold — a point at which they know that living at home is no longer an option for their loved one. We offer the following services to assist families in finding a community that can best meet their needs.

- Assessment of financial resources
- Education about Medical and Social Programs
- Identification of communities that best match your needs
- Access to current rates and availability
- Coordination of site tours
- Assistance with preparation for admissions

Urgent Placement Services

If you find yourself in Crisis Mode and feeling the stress of trying to make informed decisions about something you know nothing about... we can help.

Care Coordinators at "Opening New Doors" keep a low caseload, allowing them to offer hands-on, responsive assistance to families. For your convenience, we are able to meet with your family and loved one in the hospital or rehab and offer in-home and evening consultations.

Whether you have months or need to transition a loved one within days... we make the calls, gather the specifics, and then sit down with your family to develop a plan and make it happen.
